

FREEPLAY

BE YOU. BE HEARD.

QUICK PITCH

FreePlay™ is the ultimate stereo PA with a portable, battery-powerable design, for amazing sound anywhere. With Bluetooth® music streaming from any device and connections for mics, guitars and more, FreePlay is perfect for any professional or personal application. Plus, you can control your mix from anywhere with the FreePlay Connect™ app for iOS devices.

All-In-One Personal PA...

FreePlay is the all-in-one PA solution perfect for any mobile application. Its extremely lightweight and compact design features a powerful 8" woofer and dual 1" high-output tweeters delivering 300W of amazing full-range stereo sound. And with up to 10 hours of rechargeable battery performance available*, FreePlay is the personal PA you can take anywhere.

Perform, Present and Play...

FreePlay is the right choice for street performers with no access to power and singer/songwriters at the local coffee shop, bar or restaurant. Ideal for corporate events, mobile worship or education applications where music and announcements are needed. Also great for providing music for the backyard party, wedding or birthday celebration.

Professional Performance...

FreePlay provides all the professional sound tools you'll need for performing. The built-in 4-channel digital mixer with control over individual channel levels, EQ and digital effects like reverb and delay is perfect for connecting vocal mics and instruments. Plus, easy-to-use on-board system processing gives users four application-specific speaker mode choices and a feedback destroyer for worry-free performance at the touch of a button.

Accessory Add-ons...

Don't forget to protect your FreePlay with the optional carry bag with pockets for storing all your mics, cables and more. You can tilt the unit back or mount it on a speaker stand with the optional Kickstand/Pole Mount accessory. You can also upgrade battery performance from standard D-cell to FreePlay's custom long-lasting Lithium-ion rechargeable battery pack, ensuring you always have the power you need.

VISUAL OVERVIEW

CONTROL ON THE GO

In addition to being able to stream music wirelessly via Bluetooth, FreePlay also offers mobile control over every aspect of the mix right from your iPhone® or iPod touch® using the FreePlay Connect™ app**. FreePlay Connect delivers total mobile control over input levels, EQ, vocal or instrument effects, feedback destroyer and speaker modes from wherever you are.
